NOVAH®

Material Tech

- Flocking mesh is elastic and breathable and won't collapse.
- Imported velvet+DuPont elastomer have no deformation and offer skin-friendly feeling and feathery touch.
- Easy to clean, regular maintenance with a rag.
- Environment-friendly materials without chemical material guarantee low carbon emission, and reduce carbon emission by 30% more than common single and double mesh.
- Easy to recycle, national GRS certification, recyclable for many times.

Colorful SEDA

Take your pick

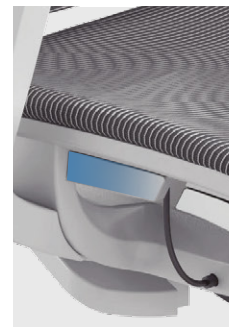

Two kinds of ergonomic seat designs are available: The softest mesh seat or foam cotton seat.

40MM seat depth adjustment makes the chair suitable for different postures and sitting postures, providing stress-free comfortability.

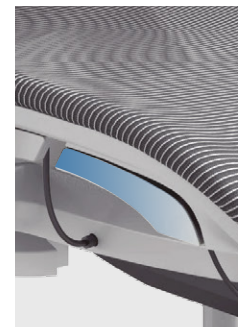

Wire-controlled self-adaptive

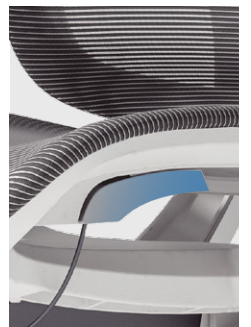

With wire-controlled handle operation and self-adaptive feature, this chair is suitable for different weights without adjusting the spring force.

**Wherever, Whenever Seated
You Will Need A Softer Chair**

Jointed Passive Frontal Lumbar Support

✗ Common fixed lumbar support

Cannot fit the waist curve of different people and the pressure is mainly exerted on the shoulder and hip.

✓ Flexible plastic lumbar support adjustment

The support position and strength can be adjusted on demand, providing effective support for your waist and distributing local pressure.

125° Back Tilt

Tilt adjustment

Provide immediate balance support and movement based on the posture and sitting posture.

**Flex Back
Brings Extra
Movement**

Extra Wide Headrest

- Height-adjustable headrest is suitable for people of different heights.
- The plastic support rod makes the headrest fit more closely to the human neck.
- Thanks to large size design, this product can offer best comfort no matter how you adjust the head position.

Elegant Shape Comfortable Experience

With a soft footrest cushion, the Seda chair is the perfect solution for rejuvenation during breaks. Adaptable and innovative in design, the Seda chair brings a new dimension to the experience, whether it's a busy work environment or a moment of contemplation.

Fatigue relief and easy maintenance

With a recline angle of up to 130°, Seda offers unparalleled relaxation, allowing you to effortlessly slip into a state that helps to rejuvenate your energy. Meanwhile, the faux leather padded footrest not only ensures that your legs are relaxed, but also promotes stretching of muscles throughout the body. More than just a seat, this chair is the catalyst for a refreshed lounging experience, providing the user with an unrivaled experience of comfort and relaxation. Our chairs combine ultimate relaxation with sophisticated design to make your rest more enjoyable.

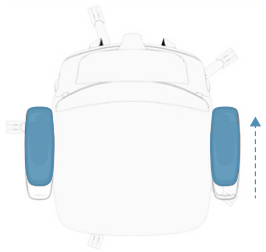

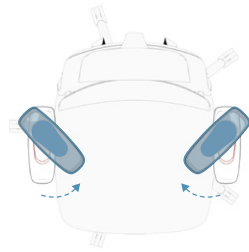

Fully adjustable armrest

The unique armrest design provides a full 360° of movement. Whether you are focusing on work or resting, simply adjust the rotation angle of the armrest surface and pivot arm, and the 5D armrest will easily support your arm, creating a comfortable experience for both work and rest.
